

MANAGING COMPLICATED PAYLOGIC

The Client: Volkswagen

Employees: 2500+ employees

Core Business: Automotive manufacturer

Locations: Mumbai

Volkswagen AG, known internationally as the Volkswagen Group, is a German multinational automotive manufacturing company headquartered in Wolfsburg, Lower Saxony, Germany.

Challenge

Volkswagen had proper selection process through RFP. Paysquare participated in the process and got selected. Client payroll was already engaged with a Fortune 500 organization and previous vendor was handling it from more than 4-5 years. Major challenge faced was in flexibility with payroll. Client had a major processing plant in Pune, and our local presence in pune helped us in winning the deal.

Solutions

As our system was flexible, it helped them solve entire payroll problem of management team as well as shop floor employees. It took a lot of efforts to make the account live as it came at very crucial time of the year. i.e December. We went live with the account in January. Entire tax computation was done seamlessly and appreciated by the team as employees were able to easily file their income taxes timely and, in an error-free manner. Team dedicated for migration did a great job in migrating all accounts, and it was done accurately and on time.

Benefits

- ▶ Ease in tax filing.
- ▶ Migration was done accurately and timely.
- ▶ Consistent error-free output.
- ▶ Employee self-service portal (My-payroll) for hassle-free access

We have been using Paysquare Services from the past 5 years It is a well-known name in the industry and among the best of the bunch. Their service, reliability and expertise has been exemplary.
